

A dark blue, irregular ink splatter or blotch serves as the background for the text. The splatter has a textured, painterly appearance with various shades of blue and some lighter areas where the ink has dried or spread. The word "Zadatak" is centered within this dark area in a white, sans-serif font.

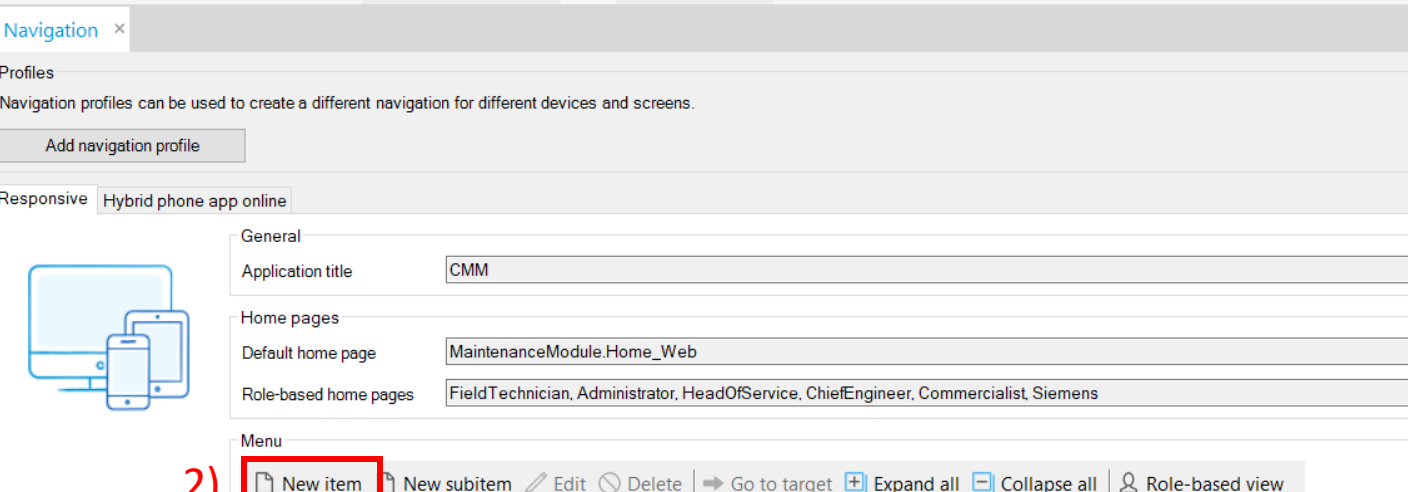

Zadatak

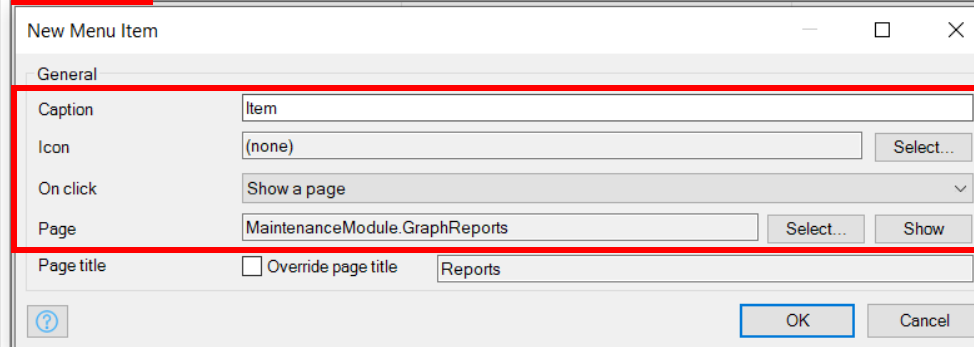

1. Kreirati novu praznu aplikaciju u Mx Desktop Modeler-u (objašnjenje je u prezentaciji)
2. Napraviti domenski model za Kadrovsku službu, po uzoru na skicu datu na sledećoj strani (podsećanje da se Id kao surogatni ključ automatski kreira, te da ga (za sad) nije potrebno dodavati u domenski model)
3. Po završetku, izgenerisati stranice za rukovanje entitetima (desni klik na entitet -> *generate*)
4. Dodati u navigacioni *bar* stranice radi omogućavanja pristupa (Project Explorer -> Project -> Navigation -> New)
5. Eksperimentisati :)

Dodavanje u navigaciju

1) The Project Explorer on the left shows a tree structure of the application. The 'Navigation' folder is highlighted with a red box, and a red '1)' is next to it.

2) The Navigation pane on the right shows the 'Hybrid phone app online' profile. The 'New item' button is highlighted with a red box, and a red '2)' is next to it.

3) The 'New Menu Item' dialog box is open. The 'Caption' field is highlighted with a red box, and a red '3)' is next to it. The dialog shows the following fields: Caption (Item), Icon (none), On click (Show a page), Page (MaintenanceModule.GraphReports), and Page title (Reports).
