

The image features a large, dark blue, irregular ink splash or blotch centered on a white background. The splash has a textured, painterly appearance with various shades of blue and some white highlights, giving it a dynamic and artistic feel. Overlaid on this splash is the text "Mendix platforma" in a clean, white, sans-serif font. The text is centered horizontally and vertically within the splash, with "Mendix" on the top line and "platforma" on the bottom line.

Mendix platforma

Agilni pristup razvoju softvera

Mendix *Sprintr*

Rukovanje sprintom

The screenshot displays a Jira project dashboard with a sidebar on the left and a main content area on the right. The sidebar is organized into four sections: COLLABORATE, DEVELOP, DEPLOY, and OPERATE. The main content area features a search bar at the top, followed by a row of buttons for creating and managing items. Below this is a list of sprints, with 'Sprint4' currently selected. Underneath the sprints, three user stories are listed, each with a status of 'Done'.

COLLABORATE

- Buzz
- Team
- Stories
- Feedback
- Documents

DEVELOP

- Model
- Team Server
- Planning

DEPLOY

- Environments
- Mobile App
- App Services

OPERATE

- Metrics
- Alerts
- Logs
- Backups

▶ Get started (Sprint 0) • 3 Stories (16 points) Due-21-Oct

▶ Sprint 1 • 6 Stories (25 points) Due-04-Nov

▶ Sprint 2 • 6 Stories (26 points) Due-18-Nov

▶ Sprint 3 • 9 Stories (25 points) Due-02-Dec

▼ **Sprint4** • Edit • Add story • 7 Stories (34 points) • Due-18-Dec

As a System, I want to be able to receive MQTT messages from the Broker, so that I am independent from the proprietary protocols. Done

13 points • ID 3055233 • Nenad Todorovic • Details • Comment

As a Chief Engineer, I want to have a Work Order created as a result of creation of Maintenance plan, so that I can send it to Field Technicians. Done

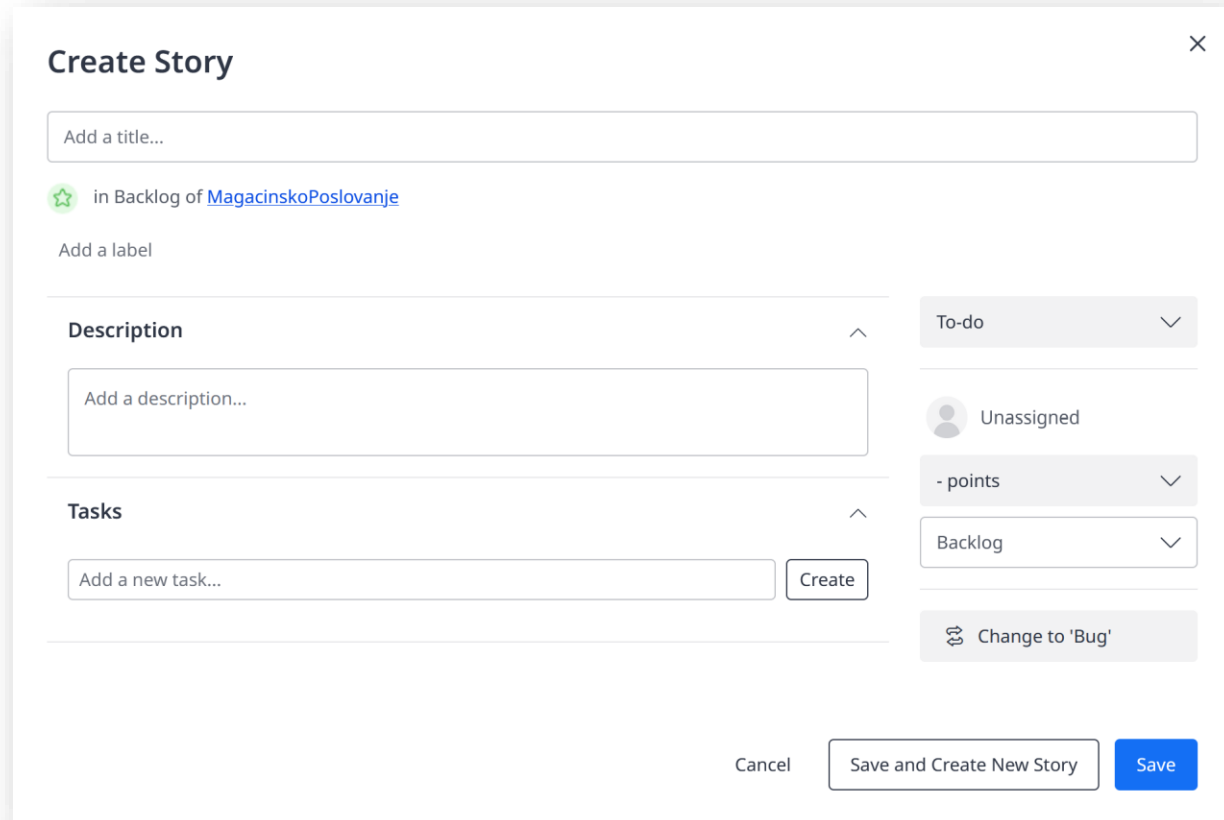

3 points • ID 3047658 • Stefan Jovanovic • Details • 1 Comment

As a Chief Engineer/Head of Service, I want to be able to import and view the equipment and signals for a project, so that the existing project data doesn't have to be imported manually. Done

3 points • ID 2916627 • Nenad Todorovic • Stefan Jovanovic • Details • 7 Comments

Definisanje *user story*-ja

- Kreiranje *User story*-ja po *Gherkin* notaciji:
 - As a [Role (Admin, System)] I want to (be able to) [Feature], so that [Goal]
- Ostatak - svako selo ima svoje običaje :)
- Obavezno prilikom izrade projekta!

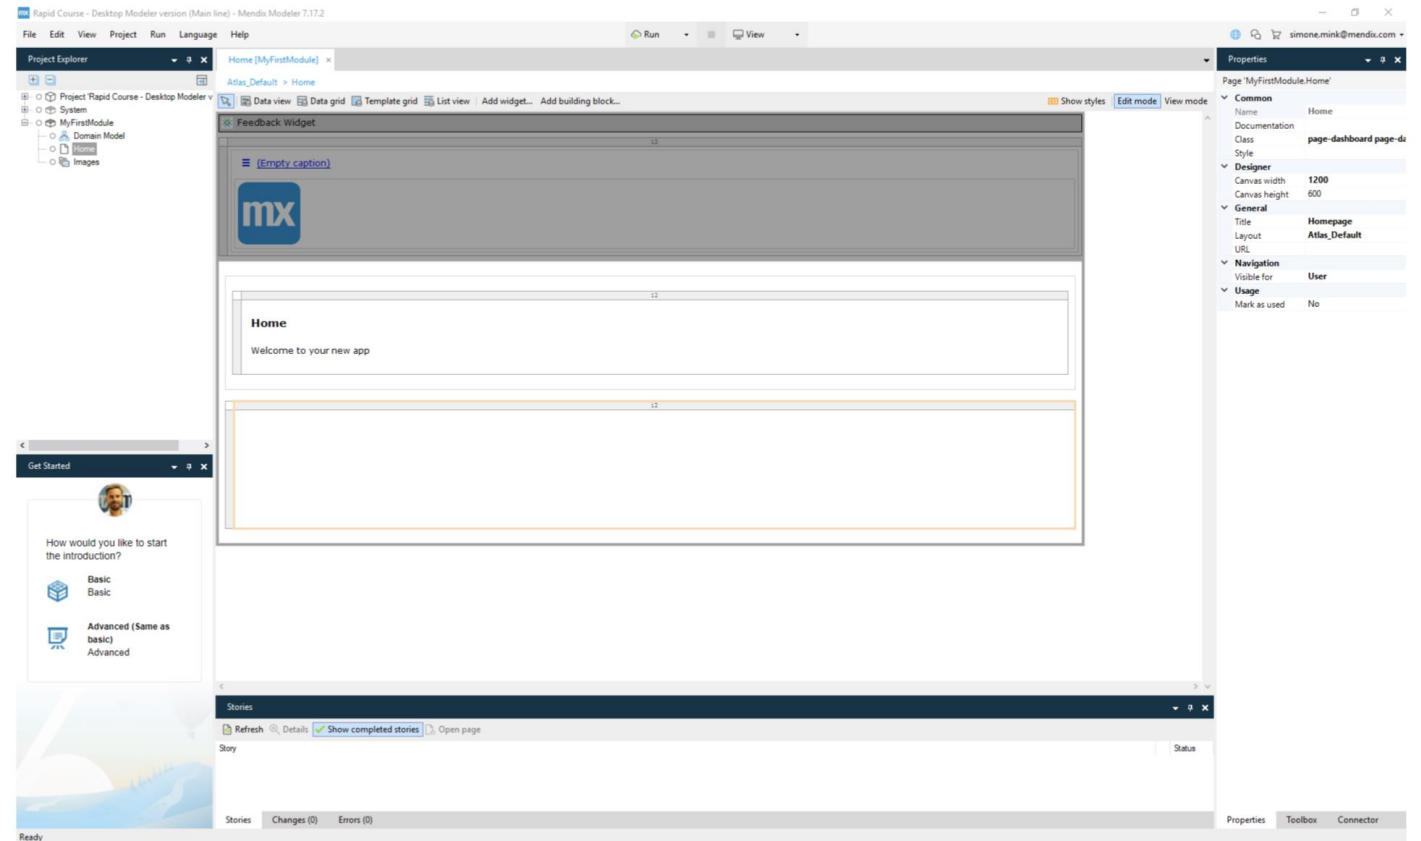

The screenshot shows a 'Create Story' form with the following fields and options:

- Title:** A text input field with the placeholder 'Add a title...'.
- Location:** A green star icon followed by the text 'in Backlog of [MagacinskoPoslovanje](#)'.
- Label:** A text input field with the placeholder 'Add a label'.
- Description:** A text input field with the placeholder 'Add a description...'.
- Tasks:** A text input field with the placeholder 'Add a new task...' and a 'Create' button.
- Priority:** A dropdown menu currently showing 'To-do'.
- Assignee:** A dropdown menu currently showing 'Unassigned'.
- Points:** A dropdown menu currently showing '- points'.
- Category:** A dropdown menu currently showing 'Backlog'.
- Buttons:** At the bottom right, there are three buttons: 'Cancel', 'Save and Create New Story', and a blue 'Save' button.
- Footer:** At the bottom left, there is a button labeled 'Change to \'Bug\''.

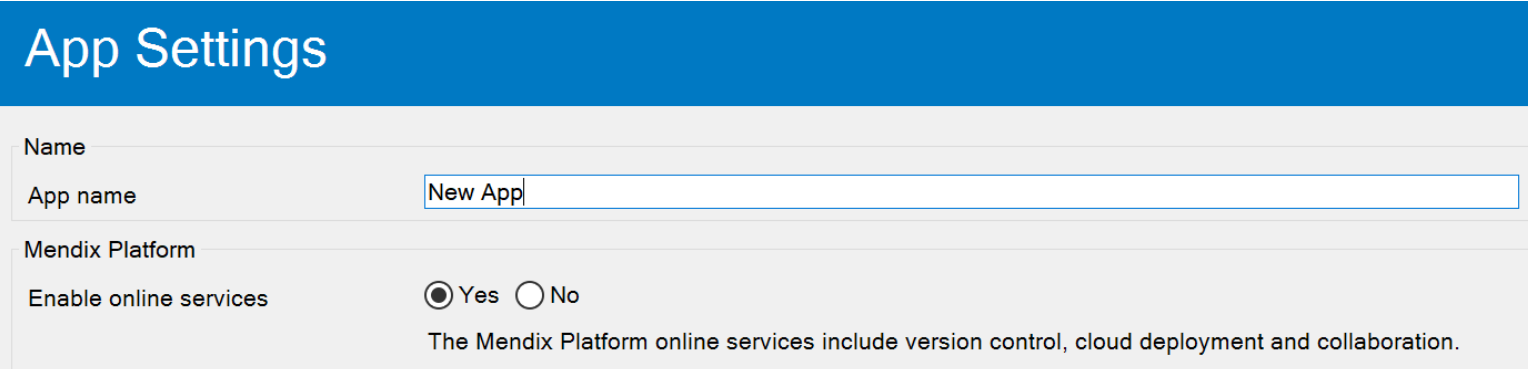

(Desktop Modeler) Studio Pro

- Studio pro sam vrši migracije rešenja na nove verzije
- Slobodno instalirajte najnoviji za učenje
- U praksi se izbegavaju najnovije verzije zbog *bug*-ova (uzimaju se LTS)

Rad u timu

- **Verzionisanje je obavezno u izradi projekta!**
- Mendix pruža CVS podršku - baziranu na SVN-u ili GIT-u
 - Dakle, centralizovani ili decentralizovani CVS
 - Omogućava grananje verzija koda (*branching*)
 - Omogućeno uvezivanje *commit*-a sa *user story*-jem
- Potrebno je omogućiti *online services*

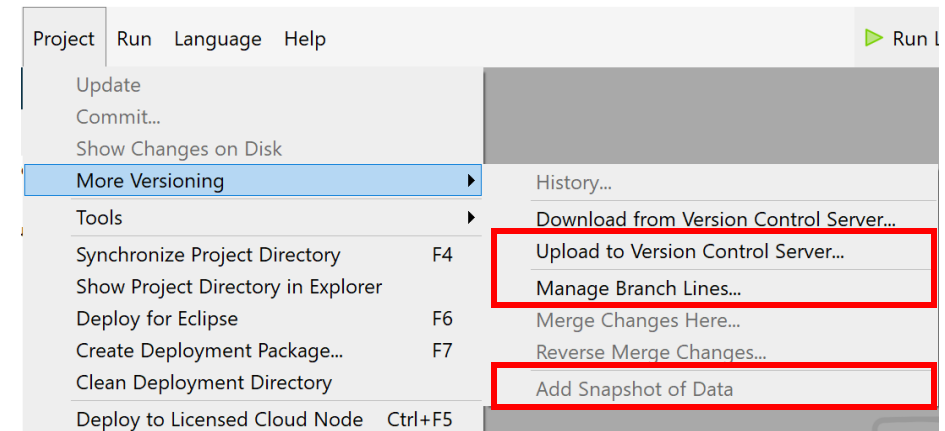

The screenshot displays the 'App Settings' window in Mendix. It features a blue header with the title 'App Settings'. Below the header, there are two main sections. The first section, titled 'Name', contains a text input field labeled 'App name' with the text 'New App' entered. The second section, titled 'Mendix Platform', contains a toggle switch labeled 'Enable online services'. The toggle is currently set to 'Yes', indicated by a filled radio button. Below the toggle, there is a descriptive text: 'The Mendix Platform online services include version control, cloud deployment and collaboration.'

Rad u timu

- *Merge* može biti jako iscrpan – kao i kod svakog grafičkog alata
 - Izbegavati rad nad istim delom domenskog modela
 - Često raditi *commit*
 - Koristiti *Tortoise SVN* za rukovanje izmenama van samog modelera (npr. Java kod)
- Moguće je sačuvati stanje baze na repozitorijumu – *Add Snapshot of Data*
